

# SALQUISA NEWS LETTER

## JANUARY 2009

2008 was another successful year for Salquisa in our key markets of agricultural chemicals and raw materials for the ceramic industry, both world-wide.

A turnover of Euros 126 million provided a net profit in the region of Euro 6 million.

This was achieved on the basis of group-financing, stringent risk management and with the view of continued sustainability.

We, at Salquisa are extremely grateful to our loyal customers, the management and technical teams, as well as to our outside associates and friends.

### Charity work in China following EARTHQUAKE

SALQUISA collaborates once again with **International Red Cross** by funding rescue and care of victims injured by terrible Earthquake in Southeast China.

### New plans for 2009

- Create new job opportunities for young chemists in collaboration with the University Jaume I of Castellón
- Further improvement of cost – management.
- Getting even closer to customers.
- Development of new and further products for the Ceramic Industry
